### Commander's Corner

Fellow Patriots,

We will have a busy month in November with Veterans Day activities throughout the state.

I need your help. We have several positions that need to be filled. We need an Americanism

Officer. Needs to be staffed soon to coordinate the ROTC/JROTC leadership programs in the spring. If interested let us know. Also, the Department Sgt-at-Arms resigned due to health issues. This position has duties at the quarterly department executive committee meetings and the department convention. If interested let us know.

Please think about what we can do to improve the Order. All suggestions, remarks, comments & concerns can be sent to Chapter or Department leadership and will be evaluated at the monthly Commander's calls.

The Commander's Call is every month on the Fourth Wednesday. A member of the chapter command group must attend. Open to all members.

### Bills in Congress

**H.R. 5530: the "VA Emergency Transportation Access Act."** Beginning in February, the VA is scheduled to slash reimbursement rates paid when a veteran faces a medical emergency and is transported via air or ground ambulance. That could mean veterans having to shoulder more of the bill. This will adversely affect Veterans in rural areas or long distances from health care. This bipartisan legislation will protect veterans' emergency medical services by blocking the VA from cutting reimbursement rates before the agency has fully reviewed all impacts to veterans' health care and sought input from veteran advocacy organizations

### MESSAGE FROM THE VA DEPUTY SECRETARY

#### Planning for Potential Lapse in Funding:

As many of you are aware, annual funding for much of the Government expires on September 30, 2023. The Administration will continue working with the Congress to complete appropriations for Fiscal Year 2024. We at VA are preparing for all contingencies, including the possibility that a lapse in funding could occur. A lapse would mean that certain Government activities would cease due to a lack of appropriate funding, and that designated pre-notified employees of this agency would be temporarily furloughed. We've prepared a contingency plan to execute an orderly shutdown of activities that would be affected by such a lapse. After the lapse ends, furloughed and excepted employees will receive retroactive pay for the furlough period as soon as possible. Most VA operations will continue without interruption if there is a shutdown. Health care through the Veterans Health Administration (VHA) and mandatory benefit payments to Veterans are funded through an advance appropriation. In addition, certain programs meet legal requirements to continue performing their designated duties and are considered "excepted." These include benefits processing at the Veterans Benefits Administration; interments through the National Cemetery Administration; and certain information technology functions at the Office of Information and Technology.
